COMMITTEE PLANS HOMECOMING WEEK

C. L. Ostrander Elected Chairman and Schuyler Sprague Secretary of Committee to Arrange for Event.

Homecoming week was discussed by the committee appointed by the Business Men's association to care for this celebration at a meeting held Wednesday afternoon in the mayor's room at the city hall.

The committee is composed of Mayor Herzog, Schuyler Sprague, O. E. Lang, H. W. Jones and Fred Frieh. Charles Ostrander is president of the association met with the committee.

Mr. Ostrander was elected chairman of the committee and will have charge of its workings in preparing for the big celebration.

Homecoming week is planned for the first week in September and will be something on the order of the homecoming held here several years ago when the Mishawaka hotel was opened.

Aviation will be the feature of the week's celebrations, there being several attractions in the air under consideration by the committee. Probably both biplanes and monoplanes will be seen here and it is not improbable that arrangements may be made with a hydroplane to make an ascension from the river.

A few tent attractions will probably be held also, while concessions of every kind will operate. The business men will probably grant the use

of the city hall.

TRAIN DAMAGES FREIGHT HOUSE

Building When Struck Moved Several Feet—Man Found Under Debris.

Backing in with terrific speed, a heavy freight engine on the Trunk system on a side track used for local coal dealers, Tuesday night about 11 o'clock struck the east end of the freight building and moved it over five feet west of its foundation. The building set about five feet from the ground on piles and it was knocked completely off them and sunk to the ground.

There was one box car ahead of the engine and after leaving the track ran several rods over rough ground before striking the freight house. A large hole was torn in the end of the building where it struck. The platform on both sides was partially demolished and was carried along with the building on its wild ride. A part of the roof was also damaged and the scales on the inside were put out of commission for several days.

It is claimed by employees at the freight house that the trainmen found a hobo in under the building and that they had to arouse him as he was asleep and the collision did not awaken him.

The building it is estimated weighed several hundred tons and there were several bales of rubber tires and some heavy farm machinery stored in the building. A crate of eggs was also inside, but the jolt did not break any of them.

NO DAMAGE AS CAR AND WAGON COLLIDE

A narrow escape from a serious accident took place Wednesday afternoon at the corner of Second and Mill st. when a five-passenger automobile driven by Miss Marie Major collided with the wagon of the Grand Union Tea Co.

Both vehicles were going in the same direction, which with the slow rate of speed at which the automobile was going, was responsible for the fact that little or no damage was done. Miss Major was coming down Mill st. and turned the corner to go east on Second. The tea wagon was directly in her path and it was too late to turn out. The vehicles locked wheels but the automobile was stopped before any damage was done.
